```
C                   Dm        Em   C
You have won the Victor's Crown
                      F              C     Am
You have triumphed over sin and death
              F
Your name is lifted high
    G7
And rings through all the earth.
       C      Dm         Em   C
Every demon spirit of hell
                      F                C    Am
Trembles when your mighty name is heard
              F                      G7
And we your Church enforce your victory in the world.

Ref:          F              G
      Oh the glory of your name
           Em                  Am
      The splendour of your name
           F            E
      And none can compare
                Am
      With the power of your name
              F
      You are Jesus
              Dm
      You are Lord
              C
      You are God.
