

**D**                    **Em**            **A**  
We are here to praise you  
                                 **D**  
Lift our hearts and sing  
                                 **Em**  
We are here to give you  
          **A**                                    **D**            **D7**  
The best that we can bring.

**G**            **A**  
And it is our love  
                                 **F#m**    **Bm**  
Rising from our hearts  
                                 **Em**                                    **A**  
Everything within us cries  
          **G**    **D**  
Abba father.

**G**            **A**  
Help us now to give you  
                                 **F#m**    **Bm**  
Pleasure and delight  
                                 **Em**  
Heart and mind and will  
          **A**                                    **D**  
That say, I love you Lord.
